

## Our Services

### MANUFACTURING

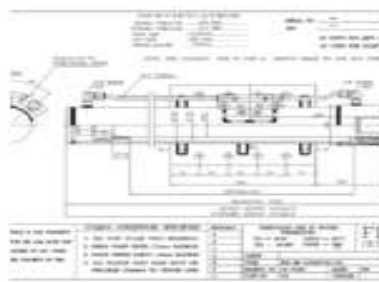

We are an experienced and professional hydraulic solution provider serving the construction, industrial, marine ,offshore & mobile segments. We provide one stop solution for customized cylinders, power units right from concept/ design to manufacturing and testing . We also assemble and configure cast iron gear pumps in-house at our Joo Koon plant. We have also manufactured cylinders to third party certifications such as DNV, ABS, GL. Llyods.

### REMANUFACTURING SERVICES

#### Cylinder

Specialised in Various Brand

Customised Cylinder Design

Assembly & Testing

Based on our decades long experience and know-how gained, we are able to provide high quality remanufacturing services at a reasonable cost. We provide repair and testing services for hydraulic cylinders, hydraulic pumps, motors, hydraulic power unit, accumulator. We have in-house testing facility for hydraulic cylinders pumps and motors with speed and torque measurement capabilities to meet the classification body requirements in marine and oil and gas segments.

## Distribution

Flo-Line has been instrumental in developing business in the region by being an extended arm for number of principal companies.

## Products

### Duplomatic

## About Us

Established in 1987, Flo-Line Hydraulics is today one of Asia's leading Distributors of high quality mobile and industrial hydraulic components. Our products are used in a wide range of industries, including construction, manufacturing and marine.

Our Mission is to provide Quality products and Value added Services for a complete source of fluid power products and a broad range of hydraulics components.

We maintain Quality by keeping abreast of technological advances, our customer's quality requirements and marine classification body compliances as well as maintaining our ISO 9001 certification for quality manufacturing.

We achieve Value by customization through in-house design/application engineering competence for hydraulic cylinders and hydraulic power units,

We ensure Service by quick and consistent response to our customer requirements, apart from maintaining an extensive and comprehensive inventory of our products enabling timely and speedy delivery of cylinder & materials and components to our customer on demand.
